CO. H AT RIFLE CAMP MAKES A FINE RECORD

Nineteen teams took part in the contest that won the battalion trophy, and four won places among the 30 highest shots in camp. Following is the standing of the leading teams:

Miller—Pirtle.

Married in the parlors of the Commercial Hotel, Hartford, Monday, August 11th, Mr. Roscoe Pirtle and Miss Annie Miller, Rev. W. E. Saville officiating. The bride and groom were both from Cromwell.

And the Boat Went Down.

Capt. J. W. Ford and a few friends went down Rough river Sunday and the engine of his gasoline launch becoming disabled, he telephoned in for Capt. A. D. White, who took the Jay Dee down to tow them in. In the meantime Capt. Ford's engine was gotten into running order.

Capt. White, accompanied by Messrs. E. P. Moore and son; J. D. Boswell, Capt. White's adopted son, and Walter Henshaw, started back. The Jay Dee soon sprang a leak. Four buckets were put to work, but to no avail and when near the mouth of Muddy creek, they had to land. Just as the last man got out, the boat went down.

By this time Capt. Ford's launch came along and towed the Jay Dee back to Hartford. Capt. White had only recently had the Jay Dee dry-docked for repairs and the seams of some new siding had not been corked. When the boat was loaded down past these seams, the water came in faster than it could be bailed out.

OIL FIELD NEWS.

Owing to the extended dry weather, drilling in all the wells save the ones on the Walter Allen farm and Prudie Moore farm has ceased. The former is near Rough river and the latter is using water from the West Kentucky's tank which is being piped from Rough river. We are informed that the well on the Walter Allen farm is making a fine showing and at about 200 feet above the same showing found in the Carter wells when dug.

Notwithstanding, as we are informed, the rig on the Widow Allen farm, near the Carter wells, has been completed for several weeks, nothing further has been done towards proceeding with the work of sinking the well.

The Brant well on the Brown farm is down about 2,100 feet and nothing more can be done until it rains sufficient to give them water to proceed with the work.

Drilling in the wells on the Bennett and Ambrose places, near Beda, had to be stopped for the lack of water.

The Snell, Howard and two wells on the Carter places are reported as still giving good productions.

CALIFORNIA ALIEN LAND ACT GOES INTO EFFECT

Sacramento, Cal., Aug. 11.—At midnight California's alien land act, the subject of diplomatic interchanges between the United States and Japan, and 685 other bills passed by the last Legislature, became effective.

The alien land act, the provisions of which have been variously interpreted, specifies briefly that aliens not eligible to citizenship may acquire, possess, enjoy and transfer real property in California in such manner and such extent as is provided in any treaty existing between the United States and the alien's country and in no other way, and may in addition lease lands for agricultural purposes for a term not exceeding three years.

The same provision is made as to companies in which a majority of the members are such aliens, or in which such aliens hold a majority of the stock.

The act further provides that when, because of this law, heirs to estates cannot take title to proper-

ty, the property shall be sold by court order and the proceeds administered and that any real property hereafter acquired in violation of the act shall escheat to the State. Present holdings are not affected by the act.

The exact effect of the law upon Japanese residents of California will be determined in suits which will soon be brought.

ADMIRATION

Follows fast upon feeding pigs, poultry, horses and cattle on some of the many varieties of grains and feed you can get here. Like the feed itself, your porkers so fed are apt to take first prize. The more you use what now is here—hay, oats, corn, bran—the less occasion you will have for "condition powders" and other curatives for your livestock later.
